What's Involved?
Overview of the baluster exchange process

Steps to your new stair:

1. **Obtain a Free Quote** -
Knowing the number of balusters on your stairs and having digital photos are a big help.

2. **Product Selection** -
Visit www.trinitystairs.com to pick out a baluster pattern. Or you can work with our designers.

3. **Preparation** -
While we try to limit the amount of dust produced, there will be some. Covering furniture in the area of your stair would be recommended.

4. **Tear Out** -
Old balusters are cut and removed from your stair.

5. **Installation** -
New Balusters are cut to length and epoxied into existing holes.

6. **Clean Up** -
We will remove all of the old balusters and vacuum the stairs to remove any wood chips and debris.

7. **Enjoy!**
Invite friends and family over for a stair warming party. Tell them how great it was to work with Trinity Stairs!
